“ I ran the Boston Marathon the same year George Tinti was reported to had finished 3rd in his age division, probably 1988? I ran that Marathon in about 3 hrs 16 minutes and after the race looked at the race results and noted another Tinti that had not only finished the race but was a top finisher (I understand he officially finished 2nd in his age group). I wrote to the Boston Marathon race organizers and they must have forwarded my letter to George who wrote back to my address at West Point NY (where I was stationed as a CPT in Army) telling me about how he overcame his injury to his left eye and his appreciation to his employer (though its been over 30 years I seem to recall he worked for 3M.). Undoubtedly he was a special man who had a positive outlook on life. Sorry to learn of his death, though it reminds me to live life to its fullest. Thomas Tinti, now living in Temecula, CA
